PARTNER TEAM

JobDropper

Bucharest - Hybrid - Lead

Field: JobDropper

Published: 03 Sep 2026

Overview

Founding Partners. Business, Marketing and Technology. We are building the team that will share responsibility for its direction, outcomes and long-term.

Details

JobDropper is now assembling its Alpha Founding Partner Team: a small core of key people who will turn the platform into a strong, scalable and internationally relevant business. This is not a conventional employee role and it is not a short-term volunteer assignment. We are looking for business partners who will contribute to both strategy and execution and who are intended to become co-owners of the company.
